

Chapter 21.5 Specific Purpose (Hospital) Zone

The notified proposal is amended by our decision as follows.

Text that is highlighted grey indicates text from earlier decisions and is not the subject of this decision. Greyed out text incorporates requests for minor corrections for which a decision has been issued.

Where the Decision text from earlier decisions is the same as, or equivalent to, a Central City Specific Purpose (Hospital) Zone provision it is shown in black text.

Text in blue is the decision text for the Central City proposal only.

Please note, to ensure clarity and certainty of provisions, and consistency with the Plan's drafting style, a number of changes have been made to our earlier decisions. These changes are not identified as it has not been practical to do so.

21.5 Specific Purpose (Hospital) Zone

21.5.1 Introduction

This introduction is to assist the lay reader to understand how this chapter works and what it applies to. It is not an aid to interpretation in a legal sense.

The provisions in this chapter give effect to the Chapter 3 Strategic Directions Objectives.

This chapter relates to activities that may occur in the Specific Purpose (Hospital) Zone. Objectives, policies, rules, standards and assessment criteria provide for activities in this zone.

The Specific Purpose (Hospital) Zone applies to suburban, suburban services and inner urban hospital sites around Christchurch City, including the Central City. It seeks that the evolving health care facility needs of Christchurch City, and the wider region, are supported by the efficient development of hospital sites, whilst also recognising the character and amenity values of the surrounding environment.

21.5.2 Objectives and policies

21.5.2.1 Objective – Enabling hospital development

- a. The evolving health care facility needs of Christchurch and the wider region are supported by efficient development of hospital sites while recognising the character and amenity values of the surrounding environment.

21.5.2.1.1 Policy – Intensification

- a. Encourage more intensified and contained use of hospital sites in preference to expansion outside of existing site boundaries.

21.5.2.1.2 Policy – Comprehensive development

- a. Ensure that for Suburban and Suburban Services Hospital Sites hospital development is planned and designed to recognise the amenity, character and coherence of the surrounding area at the site interfaces by:
 - i. Ensuring that the landscape setting is maintained at site boundaries.
 - ii. Locating taller buildings towards the centre of sites, away from more sensitive edges.
- b. Ensure that for Inner Urban sites hospital development is planned and designed to recognise and integrate with the local context by:
 - i. Encouraging pedestrian activity and higher quality amenity including planting along street frontages and in adjoining public and publicly accessible spaces.

- ii. Providing visual interest and a human scale at the interface with the street, particularly at ground floor level whilst contributing to the character and coherence of the surrounding area.
 - iii. Ensuring that the form and scale of buildings recognises the anticipated residential scale and form at hospital site boundaries of the site.
- c. Ensure that the development of Christchurch Hospital, the former Christchurch Women's Hospital and Montreal House is planned and designed to recognise the amenity, safety, character and coherence of the surrounding area at the site boundary and street interfaces by:
- i. Encouraging pedestrian activity and higher quality amenity, including providing visual interest, visual interaction and landscaping, along street frontages and adjoining public spaces;
 - ii. Ensuring the form and scale of buildings and associated landscaping acknowledges anticipated development in the adjacent zones at the boundaries of the site;
 - iii. Recognising that the former Christchurch Women's Hospital and Montreal House adjoin the Residential Central City Zone; and
 - iv. Ensuring that the development recognises the Christchurch hospital's unique Central City location adjacent to a mix of Central City activities, heritage features, the Avon River, Hagley Park and other public areas, whilst providing for large scale built development within the hospital site.
- d. For the purpose of these provisions the hospital sites are notated as the following:

Hospital Site Type	Hospital Site Name
Suburban	Burwood, Hillmorton, Princess Margaret
Suburban Services	Lincoln Road (Hillmorton Service Site)
Inner Urban	St Georges Hospital ,St Georges-Heaton Overlay, Nurse Maude Hospital, Nurse Maude-Mansfield, Southern Cross, Pegasus Health 24hr, Wesley Care Hospital
Christchurch Hospital	Christchurch Hospital, Riccarton Avenue, Central City
Former Christchurch Women's Hospital	Colombo/Durham Streets
Montreal House	Montreal Street/Bealey Avenue

21.5.2.1.3 Policy – Comprehensive development and redevelopment of sites for residential purposes

- a. Encourage comprehensive residential development of hospital sites (except Christchurch Hospital) that are no longer required for hospital purposes

21.5.3 How to interpret and apply the rules

- a. The rules that apply to activities in the Specific Purpose (Hospital) Zone are contained in the activity status tables (including activity specific standards) in Rule 21.5.4 and the built form standards in Rule 21.5.5.

- b. The activity status tables and standards in the following chapters also apply to activities in the Specific Purpose (Hospital) Zone:

- 5 Natural Hazards;
- 6 General Rules and Procedures
- 7 Transport
- 8 Subdivision, Development and Earthworks;
- 9 Natural and Cultural Heritage;
- 11 Utilities and Energy; and
- 12 Hazardous Substances and Contaminated land.

- c. Where the word “facility” is used in the rules, it shall also include the use of a site/building for the activity that the facility provides for, unless expressly stated otherwise.

Similarly, where the word/phrase defined include the word “activity” or “activities”, the definition includes the land and/or buildings for that activity unless stated otherwise in the activity status tables.

- d. Appendix 21.5.7 lists the alternative zones that apply to each of the hospital sites (except the Christchurch Hospital site). Rules within 21.5.4 provide for any additional activities or facilities on each hospital site in accordance with the rules in the relevant alternative zone listed in Appendix 21.5.7.

Note: There are no additional activities and standards for the Christchurch Hospital site.

21.5.4 Rules – Specific Purpose (Hospital) Zone

21.5.6 Matters of discretion

21.5.6.1 City context and character

- a. Whether the development:
 - i. Addresses the local context including any natural, heritage and cultural assets;
 - ii. Retains and incorporates existing character buildings and the landscape qualities of the site and surrounds; and
 - iii. Provides for intensification of services within the existing site, and enables greater efficiency of use of the existing hospital facilities, rather than requiring expansion beyond the site boundaries.

21.5.6.2 Site and building design

- a. Whether the development:
 - i. Addresses Crime Prevention Through Environmental Design (CPTED) principles;
 - ii. Orientates active areas of building to the street and other publicly accessible spaces;
 - iii. In terms of its built form and design, generates visual interest in the street scene and contributes to the amenity values of the surrounding area;
 - iv. Mitigates the visual impacts resulting from the building scale, form and location in respect to the interfaces with public and private space;
 - v. Provides for legible access to the site for all transport users and incorporates site identification signage and wayfinding;
 - vi. Minimises overshadowing, privacy and building dominance effects on residential neighbours and or public spaces;
 - vii. In terms of an increase in building height, increases the bulk and scale of the building such that it results in adverse visual and amenity effects on adjoining residential neighbours and public space;
 - viii. Minimises visual and nuisance effects of traffic movement on neighbours and public space; and
 - ix. Takes into account the operational, accessibility and security requirements of the hospital.

21.5.6.3 Fencing and screening

- a. Whether the development:
 - i. Maintains visibility between the building and the street or public space;
 - ii. Addresses CPTED principles in respect to the location, height and design of the fence;

- iii. Provides variation in fencing in terms of incorporating changes in height, variation in materials, areas of transparency or landscaping to avoid long blank and solid facades; and
- iv. Takes into account the operational, accessibility and security requirements of the hospital.

21.5.6.4 Outdoor storage areas

- a. Whether the development:
 - i. Ensures storage areas are visually integrated, screened or otherwise accommodated to minimise adverse amenity or visual impacts on surrounding properties and public spaces;
 - ii. Provides for a partial screening structure or reduction in screening that may be more appropriate to the character of the site or the area; and
 - iii. Takes into account the operational, accessibility and security requirements of the hospital.

21.5.6.5 Landscaping

- a. **In regard to hospital sites, other than the former Christchurch Women's Hospital, Montreal House and Christchurch Hospital, whether the development:**
 - i. Provides for tree planting and other landscaping that reduces the visual dominance of buildings, vehicle access and parking and contributes to the amenity of neighbouring sites and to public and publicly accessible space;
 - ii. Provides for the distribution of large scale tree planting and landscaping across the site, while giving priority to locating landscaping within the building setbacks;
 - iii. In respect to suburban sites and considering the extent to which the site is visible from adjoining sites, whether large scale tree planting is provided that visually mitigates the scale and bulk of building and contributes to a landscape setting for the built development when viewed from the site boundaries; and
 - iv. Takes into account the operational, accessibility and security requirements of the hospital.
- b. **In regard to the former Christchurch Women's Hospital, Montreal House and Christchurch Hospital sites, whether the development:**
 - i. Provides for large scale tree planting within the road boundary setbacks that contribute to the central City tree canopy and green corridors;
 - ii. Minimises the visual impacts of car parking and vehicle access at the interface between the buildings and the street and with Hagley Park and the Avon River Corridor;
 - iii. Provides for landscaping, including tree planting, that visually mitigates the scale and bulk of building, and contributes to the amenity of neighbouring sites and public space; and

- iv. Takes into account the operational, accessibility and security requirements of the hospital.

21.5.6.6 St Georges-Heaton Overlay

a. Area context

Whether development recognises the landscape setting and development patterns in respect to:

- i. Integrating with the existing pattern and grain of subdivision and building;
- ii. The extent and scale of vegetation retained and/or provided; and
- iii. The relationship with adjoining sites and buildings, particularly in respect to heritage and character values of Character Area 13 – Heaton.

b. Site character and street interface

Whether the development complements the character and enhances the amenity of the area by:

- i. Providing a front yard building setback which is consistent with the overall depth and pattern of Character Area 13 – Heaton;
- ii. Retaining the front yard for open space, tree and garden planting;
- iii. Avoiding the location of vehicle parking and garaging within the front yard, or where it visually dominates the streetscene; and
- iv. Orientating building on the site to face the street.

c. Built character

Whether the building supports the built character values of Character Area 13 – Heaton and the residential area more widely in regard to:

- i. The scale and form of the building
- ii. Ensuring that any increase in building height is not visible from a public place and is contained within the building form;
- iii. The predominance of hip and gable roofs and the avoidance of flat or monopitch roofs;
- iv. Architectural detailing including features such as front entry porches, materials, window design and placement.

d. Design guidelines

Whether the development has been designed with consideration given to the CA13 – Heaton Character Area Design Guideline.
